Gainfully employed

Infinite 3D have helped countless clients visualise new accommodation, both inside and out at locations around the world, and have provided engaging, eye-catching, award-winning photography of the completed buildings and spaces for promotion, advertising, journals and award submissions.

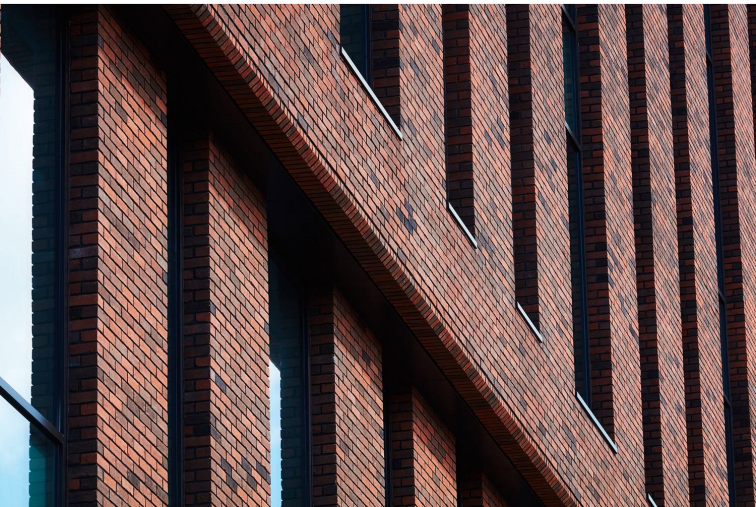

Pre-visualisation allows for a better understanding of a scheme prior to construction on site and can highlight changes required to the design that are easier to accommodate before the work itself is carried out, whilst professional photography of the completed project acts as timeless, iconic images of what was ultimately delivered.

Infinite 3D have been commissioned by major developers and contractors such as Associated British Ports, Buckingham Group Contracting, Carillion, Downing, Galliford Try, Morgan Sindall, Mouchel, Muse Developments, Neptune Developments, Peel, Pochins, and Vinci Construction, on projects for Bruntwood, CitiBank, Co-Op, HSBC, M&S, Network Rail, Rolls Royce, Sky, Swinton Insurance, and the Welsh Assembly Government.
