# No place like home

Infinite 3D boast an impressively varied portfolio of living accommodation with photography and visualisation of individual houses, student accommodation, residential towers and entire housing estates. Our work ranges in scale from bespoke hand-made kitchens for local suppliers, to private houses in Malaysia and skyscrapers across the globe.

Our portfolio contains iconic, internal and external photographs and 3D CGIs of new-build and refurbished projects that help achieve planning consent, sell properties, and win awards and furnish publications with images.

Maximising off-plan value, many of the developments we have provided CGI visualisations for sell out before any work takes place on site. The prestigious Dee Hills Park apartments in Chester enjoyed 100% pre-sales across ten £700k + dwellings.

Professional architectural photography captures the very best of any scheme, from compact, student residences to unique, contemporary conversions of an Eichler home in California. Infinite 3D Photography has the experience, knowledge, and creativity to show a scheme at its best.
